PROFESSIONAL SUMMARY

Detail-oriented Full Stack Developer with an M.Sc. in Computer Science and practical experience in architecting, testing, and deploying end-to-end web applications. Proficient in the MERN stack (MongoDB, Express.js, React.js, and Node.js), relational databases, and secure RESTful API integrations, with a strong focus on delivering high-performance, scalable, and user-centric software solutions.

Skilled in developing responsive front-end interfaces, building efficient backend systems, designing databases, and integrating APIs to create seamless full-stack applications.

TECHNICAL SKILLS

- Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS3
- Front-End Development: React.js, Bootstrap, Responsive Web Design, Chrome DevTools
- Back-End Development: Node.js, Express.js, RESTful APIs, Token Authentication, CRUD Operations
- Databases & Cloud: MongoDB, MongoDB Atlas, MySQL, Cloud Deployment Fundamentals
- Tools & Methodologies: Git, GitHub, VS Code, Postman, Agile/Scrum, Manual Debugging

PROFESSIONAL EXPERIENCE

Web Developer Intern | AIM UNIVERSSE – Coimbatore | September 2025 – February 2026

- Engineered an Event Management System using the MERN stack, boosting platform load speed by 20%.
- Designed secure dashboards featuring cross-role session handling and restricted access control permissions.
- Optimized underlying MongoDB Atlas cluster configurations, lowering query handling durations by 15%.

PROJECTS

Help Desk Management System (MERN Stack)

- Architected a modular full-stack application lifecycle utilizing React.js for client-side state manipulation and Node.js/Express.js to manage high-throughput backend server routes.
- Engineered secure end-to-end authentication protocols by integrating JSON Web Tokens (JWT) for stateless session validation and implementing bcrypt pre-save cryptographic hashing.
- Designed a highly scalable MongoDB schema that structured strict relational data contexts for multi-tier user access control (Admin, Agent, Client) and chronological transaction logging.

Career Hub (AI-Assisted Web Application)

- **Tech Stack:** React.js, Node.js, ChatGPT API, Python, Prompt Engineering, HTML5/CSS3
- Utilized **Vibe Coding** techniques and advanced AI platforms to rapidly prototype and build an end-to-end career guidance platform.
- Authored precise, structured engineering prompts to generate, modify, and optimize robust codebase structures.
- Reviewed AI-generated scripts to troubleshoot runtime exceptions, manual logic errors, and integration bugs.
- Documented effective prompt workflows, system inputs, and edge-case testing scripts for future deployment

EDUCATION

Master of Science (M.Sc.) in Computer Science | RVS Arts and Science College, Coimbatore, TN (Grade: 7.4 / 10)

Bachelor of Science (B.Sc.) in Computer Science | Parks College, Tiruppur, Tamil Nadu (Grade: 6.2 / 10)

CERTIFICATIONS & TRAINING

- **Infosys BPM Skill Development Program** – Core corporate and technical skill training configuration.
- **AI Summit Participant** (Woxsen University)
- **Techno Fest Week Participant** (Interactive Learning)

LANGUAGES

- Tamil
- English

“Turning ideas into reliable digital solutions through clean code, continuous learning, and a passion for technology.”
